WEEC (Donna)

At this point I know there were over 800 delegates who attended. At our final meeting on Wed, there was lots of positive feedback from the participants. Fabulous networking opportunity! The majority preferred the poster/round-table format (I only had one who insisted on using power point). One highlight for me was the guest speakers...especially Cuojaaw. Great message about getting our teachers outside, as well as the kids..."tell the kids to turn hippy and fight for the earth". Really authentic, powerful speaker. Even though there was a fair amount of work involved, I'm thankful I had the opportunity to take part in the conference. It was memorable.
