

Zoom Meeting
April 27, 2020 3pm
Covid and beyond with the Salish Sea

1. Introductions: How are we all doing? What is challenging/driving you these days?
Commitment to Salish Sea-- challenges?
2. What's Next for Salish Sea in these times
 - a. Chloe discusses EEPsa "Retreat" online and Links database being created and AGM

EEPSa email to send any good online resources for EE EEPsa
frances.mccoubrey@sd27.bc.ca or send to Chloe with a short curated message
(age group, how you used it, what is it?)

- b. Is there anything we want to offer folks that might be useful in this times in terms of education and coming together?

--Gillian et al. Post more frequently in the Facebook group anything helpful or heartfelt about the environment or a good link for something that you've used

-Chloe to send a touch base email to the list to see if there is anything people are looking for at this point and to share EEPsa link to resources

-Chloe to look into seeing if the counsellor or ecopsychologists she knows are interested in being part of a webinar and discussion (with actual techniques) for perhaps mid-late May

=Chloe proposes AGM to be an email conversation out to all members and some kind of forms "voting" and then a social connection peace in June (June 5th? I and all of Saanich have a ProD Day)-- perhaps this could be through Zoom with group breakouts and conversations OR maybe maybe outside in a spread out field somewhere (wishful thinking). Or by boat? Could we do it in a canoe or kayak if someone has access?? Or stand up paddle boards??? ;p

Lets meet again soon as a team.
